Vienna, Febr. 3.

THE Treaty with the Elector of *Saxony* is concluded for 6000 Men, which are to begin their march the next Month. The Officer who arrived here the last Week from *Berlin*, has adjusted all things concerning the march of the *Brandenburgh* Forces, and the Emperor has appointed Commissaries to provide for their subsistence from the time they enter into his Territories. The Elector of *Bavaria* has caused Magazines to be made in several places in *Hungary* near the *Danube*, that his Troops may be plentifully furnished with Provisions and all other Necessaries during the Campagne. The *Venetian* Ambassador having obtained the Emperor's leave to raise two Regiments in the Empire for the Service of the Republick, is now treating with several *German* Officers for that purpose. The advices from the *Turkish* Quarters, as well as from *Hungary*, say, that the Grand Signior has declared Count *Teckeley* Prince of *Transilvania*, and of *Upper Hungary*, and that he will be at the Head of a Body of Ten or Twelve thousand Men, so soon as the Season will permit it; upon which the Emperor has sent Orders to his Officers commanding in *Upper Hungary*, to be upon their Guard, that they may not be surprized in their Quarters. General *Caprara*, as the last Letters from *Caschaw* inform us, has sent another Detachement to reinforce the Imperial Troops that block up *Montgatz*, the Garison whereof, upon the news of *Teckeley*'s liberty, have taken new Courage, and have, it's said, bound themselves by Oath to defend that place to the last extremity. We have advice from *Adrianople* of the death of the Grand Visier, and that the Grand Signior had made choice of *Solyman* Bassa (who commanded against the *Poles* the last Summer) to succeed him in that station, and had withal declared, that he should command the *Ottoman* Forces in *Hungary* the next Campagne. That the Grand Signior had caused several Millions to be taken out of the Seraglio, to advance the new Levies he had ordered to be made, which notwithstanding went on very slowly, by reason of the great Consternation that's spread throughout the whole *Ottoman* Empire.

Vienna, Febr. 7. This week arrived here an Express from *Poland*, with advice, That an Envoy was come to that Court from *Persia*, who had assured the King of *Poland*, that the Sophy his Master had declared War against the *Turks*, and that 80000 Men of his Forces were marching with a resolution to besiege *Babylon*. We are likewise informed, that the Czars of *Moscovy* have resolved to enter into the League against the *Turks*, upon condition the *Poles* do quit their Pretensions upon *Kiovia*, and some other places, formerly belonging to that Crown, but now in the possession of the *Moscovites*; whereupon the Emperor has ordered the Count *de Nostitz*, residing at present at the Court of *Sueden*, to go his Ambassador to *Moscow*, to assist the Ambassadors of *Poland* in their Negotiation at that Court. The Envoys from Prince *Abafti*, and the States of *Transilvania*, continue their Conferences with the Imperial Ministers; And we hope to be able in a very short time to tell you, that they have concluded an Alliance against the *Turks*. We have an account from *Hungary*, that a Party of the Garison of *Buda* having made an Incursion into the Imperial Territories, and advanced so far as to carry away some Cattle out of the Neighborhood of *Raab*, in their return they were fallen upon by the *Hussars* of *Vesprin* and *Papa*, who defeated the *Turks*, and recovered the Booty they had taken. We have likewise advice, that a Party of 30 Foot and 20 Horse, came lately out of *Montgatz* in the Night, with a design to make an Incursion into the neighbouring Countrey, but being discover'd by the *Imperialists*, most of them were killed or taken. Several Brigades of Horse, very well mounted and equipped, have within these few days passed through this City in their march to *Hungary*, to recruit the Imperial Regiments that are now quartered there; And great quantities of Ammunition of all sorts have been sent from hence by water, to fill the Magazines that are making on that side. We have advice that 6000 *Turks* have lately joined the *Ottoman* Troops appointed for the guard of the Bridge of *Essecke*, under the Command of four Bassa's and that the Garison of *Temiswaer* has been reinforced with 1200 Men.

Ratisbonne, Jan. 30. The Imperial Commissioners have, in the Name of the Emperor, demanded of the States of the Empire assembled here, an extraordinary Subsidy for the War against the *Turks*. The Minister from the Elector Palatin has presented a long Memorial to the Dyet concerning the Pretensions of the Dutchess of *Orleans* upon the Allodial Lands of the Palatinate. The States of *Franconia* are separated, having, among other matters, resolved to recruit their Troops at present in the Emperor's Service.

Hamburgh, Febr. 5. Yesterday about 10 in the morning, the Magistrates of this City had the Alarm, that 2000 Men of the Duke of *Zell*'s Forces who had past the *Elbe* 3 or 4 *German* Miles above this place, were come into part of their Territories, called, *The Four Lands*, and had taken a little Town called *Barsdorf*, that some had been wounded on both sides, and that the Governor was retired with several of the Townsmen into the Castle, which still held out. Upon this News, the Magistrates caused the Burghers to meet, and it was resolved to raise Men, and to send to Colonel *Franke*, who commands the *Lunenburgh* Forces, to know the reason of his invading their Territories; he returned
